The promises of APIs and API Management

BCGE

API are digital products

The API first strategy – The five rules of Jeff Bezos mandate, 2002

1. *Data and Capabilities must be exposed through API*
2. *Team Communications must be through APIs*
3. *There can be no side channels/shortcuts.*
4. *Technology choice is secondary.*
5. *APIs must be externalizable.*
6. *Anyone who doesn't do this will be fired.*
7. *Thank you; have a nice day!*
